Working out trade rates

Trade rates are normally derived from MRP after removing GST, then the retailer margin (to give the price to retailer, PTR) and the stockist margin (to give the price to stockist, PTS). Use the free calculator at fertillogic.in/tools/ptr-pts-calculator/ to model this with your own margin assumptions. Your actual partner rates are confirmed at quote stage.

Request the current partner rate list for your district.

This document is for trade and professional reference only. It is not medical advice and does not replace the approved package insert. Prescription (Schedule G / H) medicines must be dispensed only against the prescription of a Registered Medical Practitioner. FertiLogic products are manufactured by third-party WHO-GMP certified manufacturers as printed on each pack. Product details are reproduced from pack labels; where a detail is not published it is marked "On request" or "See pack label". Information may change — confirm current details with the FertiLogic franchise desk before ordering. MRPs and pack sizes are subject to change; the price printed on the pack supplied prevails.
